WALL

INSPIRATION

RESTAURANT «PARTAGE» :
CONVIVIALITY, NOT NOISE!
HÔTEL DES VOYAGEURS - SAINT RENAN (29)

In December, the restaurant of a historic hotel in St Renan reopened. To match the new style of cuisine launched by its starred chef, Julien Marseault, there has been quite a change: new name «PARTAGE», new concept and above all new scenery!

TESTIMONY

«I wanted to keep our ceiling mirror that reflects the light coming from the large window. But this room was very noisy and when the 50 seats were booked, nobody could hear each other anymore!

So we decided to have TEMPO acoustic panels installed, giving

priority to the walls. Before, the room was so noisy that it was disturbing for some customers. Today, people who come back to discover our concept of dishes to share, can feel the difference.

«PARTAGE» creates conviviality, so people talk a lot. With the panels, conversations remains more confidential. The room become pleasant for customers and also for the staff's members. And our mirror is highlighted, the contract is fulfilled! »

Mrs. Marie Le Dot,
Owner of the Hotel des Voyageurs
/ Restaurant Partage

TESTIMONY

«It's the first time we've ever done screw to wall panels. It went very well, even though we had to be very precise for an edge-to-edge installation, parallel to the benches.

With the tailor-made dimensions and the flexibility of installation, the architecture is not altered. When renovating, it's important!

Whatever the installation, I recommend TEMPO above all for the acoustic and aesthetic results! »

Mr. Serge Gélébart
