INSPIRATION

928 ACOUSTIC PANELS FOR A GOVERNMENT AGENCY IN CHAMP SUR MARNE (77)

The government agency of recovery for Social Security and Family Allowances in Paris region has reorganised and moved last January to a 7600 m² new building in Seine-et-Marne

TESTIMONY

"For this important tender, I did not hesitate and asked right away Tempo because of the good value for money of their products and I won the contract thanks to their offer. As I thought, with this brand the architect could not only meet his acoustic objectives but also enjoyed himself with design possibilities

Of course, we had some unexpected surprises with the wall and ceiling support materials and we had to be inventive, but installing TEMPO helped us. Everything went well.

Installing so many panels requires method. The production unit stuck to the precise delivery schedule we agreed on. All the fasteners were first delivered so that my teams could install them with a drilling pattern. Then the Tempo panels were delivered floor by floor, and there was nothing left to do but hang them up or put them on walls."

Drystan GUILLET
Technical Sales Manager INTERPOSE

Design and installation: Design : Axis architecture,

TESTIMONY

"Following mergers-reorganisations, this building hosts telephone platforms. The sound environment for this type of offices has been taken into account for a long time in our premises.

TEMPO is the real discovery of this project. Recommended by the fitter, these products have demonstrated their flexibility and efficiency.

I plan to install them on other current building sites in the coming months."

Alberto PEREIRA
Real Estate Asset Manager
URSSAF Ile-De-France

TECHNICAL FACTS

- TEMPO Panels triangular, square, hexagonal and 5 sizes of rectangles
- Screw mounted to wall, screw mounted to ceiling, suspended by 4 cables, suspended by 2 cables
- «LE» Flammé 57
