INSPIRATION

WHOORKS: ACOUSTICS AND CIRCUS ARTS NANTES (44)

New Whoorks flex office, opened by Legendre XP in Nantes, stands out for its décor that borrows to the imagery of the "Machines de l'Île", the "Royal de Luxe" and the circus arts.

TESTIMONY

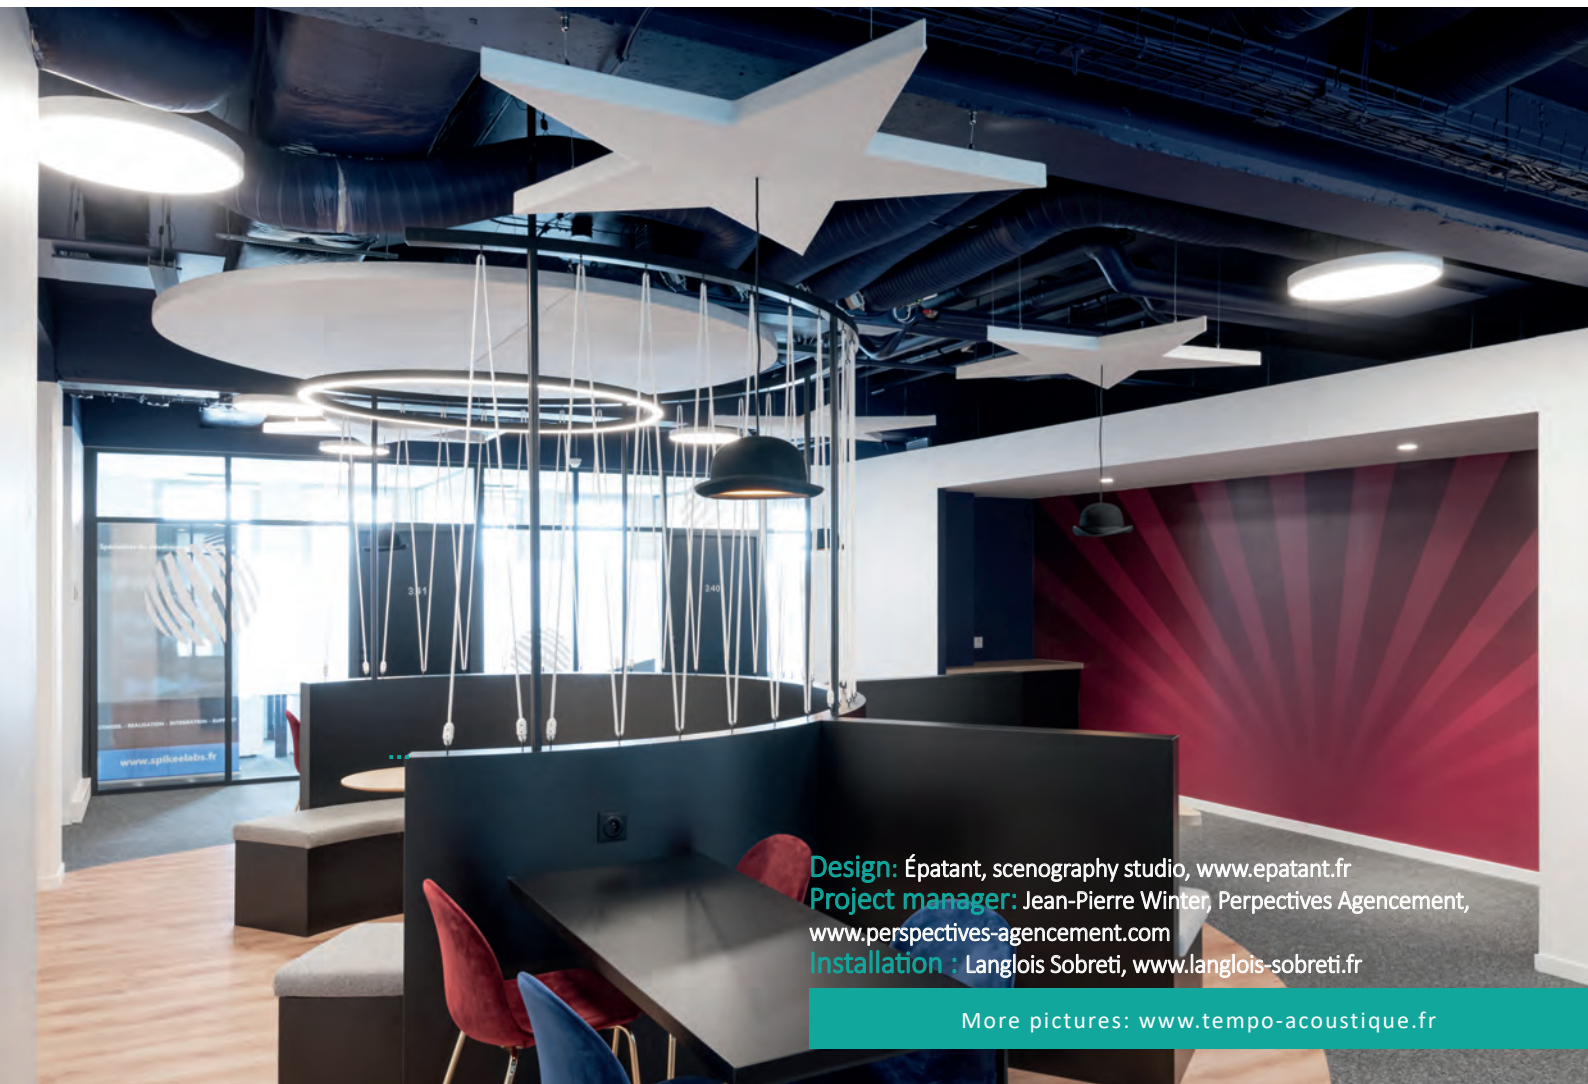

"Thanks to all custom-made acoustic elements, our premises stand out for aesthetics.

We have chosen to keep the technical ceiling for aesthetics and to emphasize the visual impression of volume by dark colour.

This choice made an acoustic treatment other than

a false ceiling essential. Indeed, echo effects are quite noticeable in areas where there are no TEMPO panels."

Mathieu PETETIN
Whoorks Nantes centre manager

TESTIMONY

"As this operation had to be carried out within a short period of time, we deeply worked on the prescription with the project manager. As the main purpose was to optimise both procurement and installation times, we decided to standardise the whole specifications in a single product that meets our expectations: TEMPO.

Forms being many and varied, with strong technical requirements while maintaining the expected sound absorption performance, DIGITEX was able to meet all our expectations with reactivity and reliability, both during quotation and construction phase.

Our partnership with this company has been consolidated thanks to its commitment, its imagination, its proximity and the quality of its products."

TECHNICAL
FACTS

Recto :

- TEMPO Inspiration, Stars 1235 x 1300 x 50 mm, «LA» Toile Crème 220, suspended 3 cables
- TEMPO Inspiration, Discs ø2000mm, «LA» Toile Crème 220, suspended 3 cables

Beside :

- TEMPO Inspiration, Ring øint 1300 / ø ext 3300mm, «LA» Toile Blanc 210, suspended 4 câbles
- TEMPO Panels, Discs ø 800 mm, «LA» Toile Blanc 210, suspended 3 câbles

TESTIMONY

"Thanks to these products, we succeeded in balancing designers' thoughts, schedule and budget! We didn't have to choose between technique and decoration, of which panels are an essential part. The result really reflects original 3D and the acoustic effect is there.

Another advantage that we discovered during installation is their fixing system. Easy of handling and very fine settings will make it easy to operate in allowing access to the air conditioners.

When we had to add panels in the restaurant area, we have chosen to be more discreet and easily found the right covering thanks to wide choice of their colour chart."
